Also featured on The Shake

1) Want to Add a Festive Touch to a Room?

Change the shades of your sconces. You can buy inexpensive paper shades and spray them with copper.

2) Apply Copper on an Accent Wall

Accent wallpaper is great when you want to test out a new color. It can leave your guests in awe and lusting over your home design. Bring a different texture and light by doing a copper wall and you will give a second life to your artwork.

3) Use a Copper Christmas Tree Topper and Copper Garland

With holidays just around the corner, it is time to start thinking about what you want your colors for your Christmas tree to be this year. Test out copper! Purchase a copper Christmas tree topper and/or garland (you can purchase your copper toppers and garland from Paysage!) and you'll be amazed by how beautiful it is with the evergreen colors of the Christmas tree

4) Copper and White Flowers

Copper is an elegant complement to white. Use it in flower arrangements. The rustic look of a copper vase is a great contrast and enhance the beauty of white flowers. Don't hesitate to add greenery sprayed with copper, or add one of our Paysage copper garlands to your flower arrangement.

5) Use Copper in Your Tree

Ornaments are easily the best way to use different colors for the holidays. No matter the size, color or shape, they bring together your holiday home decor. Copper Christmas ornaments will add more liveliness to a tree. Mix with clear glass ornaments and it's magic!

GIGI'S KITCHEN

Cured Salmon (Gravlax)

INGREDIENTS:

- 1 c. sugar
- 1/2 c. salt
- 2 T. cracked white peppercorns
- 2-3 large bunches fresh dill including stems
- 2 1/2-3lb. salmon filet in one piece with skin on

INSTRUCTIONS:

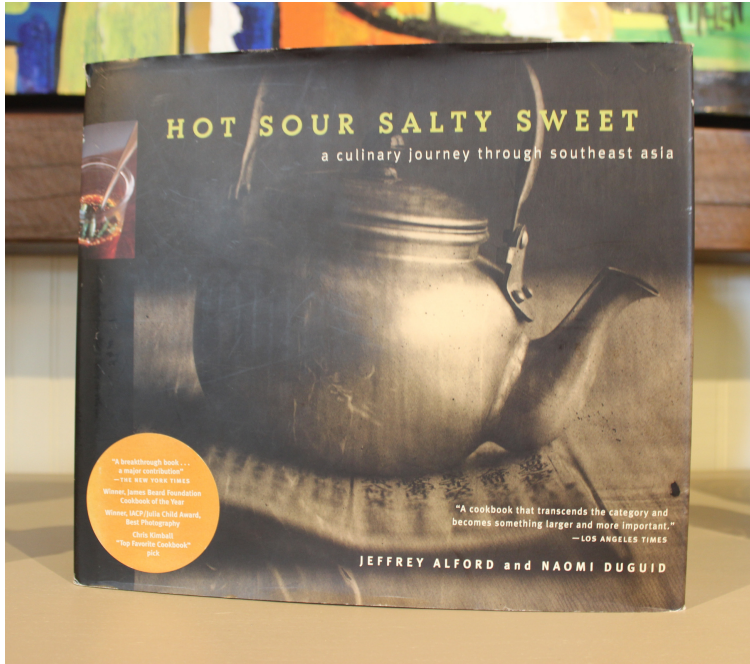

1. Add the sugar, salt and peppercorns in a small bowl and mix well.
2. Arrange half the dill on the bottom of a pan or casserole large enough to hold the side salmon. Rub the skin of the salmon with the sugar/salt mixtures, sprinkle some more of the mixture on the top of the dill, and place the salmon skin side down on the dill. Rub the top of the salmon with sugar/salt mixture and sprinkle the remaining mixture over the top of the salmon. Place the remaining dill on top of the salmon.
3. Cover and let stand for 6 hours in a cool spot (not the refrigerator). Transfer to the refrigerator and allow to cure for 36 hours.
4. Remove the cured salmon from the container and brush off any sugar/salt mixture and dill that clings. Slice thinly on a flat angle to serve. Cured salmon will keep a week wrapped in the refrigerator. It loses some texture when frozen, but will keep a couple of months.

Yield: 2 1/2-3 lbs. cured salmon

Enjoy!
